■ Recommended Mounting Pattern

\* The dotted line portion indicates the position of the pattern.

- \* Set interval L of the signal pattern to 6 mm and interval S of the signal pattern and ground pattern to 1 to 1.8 mm.
- \* Press the red seal onto the microstrip line surface and solder the tab.
- \* Tab Soldering Conditions
  - Soldering iron tip temperature: 260 to 290°C
  - Time: Within 5 seconds
- \* Note that although the high frequency characteristics will be somewhat degraded, please attach the tab with some slack in order to improve the thermal reliability.
