### **BDM40**

4 ½ Digit Display, True RMS, Benchtop DMM

# Bench testing of voltage, ohms and amps made easy and precise

- AC and dc voltage, current, resistance and diode test
- High accuracy, basic V dc 0.03 %
- 2A fused and 20A range
- Easy-to-read, 0.5 Inch LED Display

This 4  $\frac{1}{2}$  digit (20,000 counts) digital multimeter features True RMS (ac or ac + dc coupling) measurement capabilities to assure accuracy regardless of the

types of waveforms. The BDM40 features high resolution at a low cost, which makes it ideal for production test, QA test, depot service and university and school labs.

Measurement capabilities include voltage from 10 mV to 1200 V dc and to 1000 V ac, current from 10 mA to 20 A, and resistance from 10 m $\Omega$  to 20 M $\Omega$ . Diode test is provided on the 2 k $\Omega$  range.

The interlocking push buttons on the front panel provide easy selection of functions and ranges. Bold labels on the input jacks increase visibility and offer an added safety, as does the fully fused 2A jack.

The BDM40's full 360° adjustable tilt bail and LED display maximize readability for most any bench application. Each meter comes with standard test leads, power cord, and operator's manual. A full line of optional probes, current clamps and test leads is available to meet your application needs.
