Electronics

Low-Voltage / Wide Band Si Hyperabrupt Varactors

Features

- Surface Mount Packages (SOT-23, SOT-323, SOD-323)
- High Capacitance Ratio at Low Voltages
- High Q at Low Voltages
- SPC Process for Superior C-V Repeatability
- Available as Single and Common Cathode Pairs
- Tape and Reel Packaging
- Designed for Commercial Wireless Applications

Description

The MA4ST300 series are ion-implanted, hyperabrupt junction, silicon tuning varactors in SOT-23, SOT-323, and SOD-323 surface mount packages. This series of varactors is designed for high capacitance ratio and low voltage operation. Each varactor type has a better than 3:1 capacitance ratio between 0.5V and 3.0V.

Applications

The MA4ST300 series tuning varactors are useful for wide band tuning and low phase noise applications where the supply voltage is limited to 5 volts or less. These varactors have been specifically designed to cover wireless application bands up to the 2.4 GHz WLAN band. Applications include VCOs and voltage tuned filters.

Absolute Maximum Ratings @ T_A=+25 °C (Unless Otherwise Noted) ¹

Parameter	Absolute Maximum		
Reverse Voltage	12 V		
Forward Current	50 mA		
Total Power Dissipation	250 mW		
Operating Temperature	-55 °C to +125 °C		
Storage Temperature	-55 °C to +125 °C		

1. Operation of this device above any one of these parameters may cause permanent damage.

2. Please refer to application note M538 for surface mounting instructions

Mounting Information

The illustration indicates the recommended mounting pad configuration for the SC-79, SOT-323 and SOD-323 packages. Solder paste containing flux should be screened onto the pads to a thickness of 0.005- 0.007 inches. The plastic package is placed in position, firmly adhering to the solder paste.

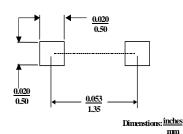

Permanent attachment is performed by a reflow soldering procedure during which the tab temperature does not exceed +275 °C and the body temperature does not exceed +250 °C, for standard models and +260 °C for the RoHS compliant devices.

Please refer to Application Note M538 for surface mounting instructions.
