A1101R04C-EZ4x

The A1101R04C-EZ4x is a high-performance demonstration platform, designed to showcase Anaren's family of ETSI-compliant AIR modules. It features an A1101R04C AIR 433 MHz connectorized module, and is designed to quickly connect to the Texas Instruments eZ430 Development Kit battery board or USB debugging interface
Product Overview

The A1101R04C-EZ4x is a target board assembly with the Anaren A1101R04C radio module in the industry's smallest package (9 x 12 x 2.5mm) mounted on it.
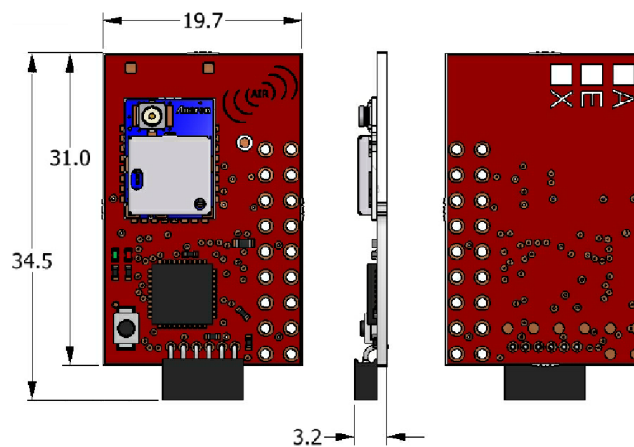

This module is fully compliant with Texas Instruments eZ430-RF2500 Development Kit, and plugs directly into either the battery board or USB debugging interface via the 6 pin header. It is designed to be a direct-replacement for the access point and end point target board modules included with the Texas Instrument eZ430-RF2500 Development Kit. Each Anaren A1101R04C Radio Module is ETSI compliant, and incorporates the Texas Instruments CC1101 transceiver chip.

As a stand-alone module for your final design implementation, Anaren's A1101R04C has an LGA pad footprint with an industry-standard U.FL button connector receptacle. This module is designed to effortlessly integrate into a wide range of applications, including: industrial control, building automation, low-power wireless sensor networks, lighting control, and automated meter reading.

P18	P3.1 / UCB0SIMO / UCB0SDA

This product is not to be used in any implantable medical device or external medical device intended to regulate or monitor biological functions, including but not limited to devices such as pacemakers, defibrillators, cardiac resynchronization devices, pressure sensors, biochemical stimulators and neurostimulators. ANAREN MAKES NO WARRANTY OF FITNESS OR MERCHANTABILITY OF THIS PRODUCT FOR ANY USE OF THIS TYPE. Anaren shall not be responsible for any consequential damages arising from the sale or use of this product for any use of this type. The ultimate user of the product assumes all risk of personal injury or death arising from a prohibited use.

Nomenclature

A1101R04C-EZ4X

① ② ③ ④ ⑤ ⑥

	A	(Anaren)
1	Chip series	(C1101, CC110L, CC2500)
2	Function	(R = radio only)
3	Frequency band	(x100MHz)
4	Form factor	(A = Internal Antenna, C = Connector)
5	Module Type	(EM1 = Eval Module, EZ4x = EZ-430 Module, LPF = BoosterPack)
6	Firmware (EZ4 only)	(A = Access Point, E = End Point, X = Custom (or no firmware)
